## Freshness Promise From The Farms.

We are keen about maintaining the quality and freshness of the products, our processing unit is situated in close vicinity of our farms, which helps us to reduce the crucial time between harvesting and processing. This additional benefit of reducing the time allows us to preserve and maintain the natural freshness, flavor & nutritional values. We also practice to maintain the quality and continuous supply of the fruits and vegetables, hence we believe in having a long-term relation with our farmers. Our team of expert and highly-qualified agronomists guides the farmers for optimized cultivation practices, using new age techniques, implementing sustainable agriculture methods which help making a win win situation for the partnership. We care for the giver our Mother Nature, by following "GAP" at our farms.

## Why Kuroli Foods

- **The best of Nature, always Fresh**

We, at Kuroli Foods have perfected the art of preserving the goodness of nature in the most natural form & making them available anytime, anywhere.

- **Available in every Season**

Harvested at precisely the right time - when they are at their very best. Our products can be enjoyed all year long, adding taste filled healthy variations to your diet & giving you much needed vitamins & minerals in any season.

- **Preserved at the Peak of Perfection**

In our state of art modern processing technology, we work hard to process the products at the peak of perfection to preserve their nutrients, flavor, color and texture until the consumers are ready to enjoy them.

- **Easier and more Pleasure**

Today's consumers are consciously seeking a balanced meal that is good for them, looking for optimized combination of health, taste and convenience. Kuroli Foods offers them a wide range of products that cater their needs in the most natural form.

- **Adding Extra Convenience**

Convenience is the essence in today's world, We respond to their needs by constantly inventing products and packing methods. Our products are carefully and hygienically washed, peeled, sliced diced thus saving time in preparation, while our Consumer/ Retail packaging makes them easy to store and consume any time.

- **A Wealth of Natural and Fresh Vegans**

We offer a wide range of frozen and processed fruits, vegetables. Our vegies include a wide range of classics - Sweet Corn Kernels, Baby Corn, Jalapeno Peppers, Carrots, Green Peas, Okra, Drumstick, French Beans, Cauliflower, Broccoli, Spinach, Ginger, Garlic, Shallots, Onion to name a few.

Our selection of seasonal fruits products include - Mango (Alphonso, Totapuri, Kesar), Guava (White, Pink), Strawberry, Papaya, Pomegranate Arils, Coconut Chunks, Musk Melon to add that extra delight to your desserts and juices.

## Getting closer to the clients.

- **Building Strong Partnership**

We believe in building strong partnerships with our customers. We put our expertise at their service to jointly develop products that will enhance their business and help them successfully anticipate new market trends.

We work on ways to develop business strategies with our customers that will differentiate them from their competitors and lay the foundation for future growth .

- **Working Smarter day by day**

Kuroli Foods strives for operational excellence in all its activities, right from cultivation in the farmers fields, until distribution of our products, thus maintaining the cold chain and from the First Mile to the Last Mile. Our focus on continuous improvement ensures we are using our resources in the best possible way by making our workplace safer and improving the quality of our products and process. Our well-equipped factory is in compliance with globally approved certifications and standards namely BRC, KOSHER, HALAL & ISO to name a few.

- **Quality and Traceability throughout the Supply Chain**

We use updated & modern techniques to constantly monitor our production process ensuring Quality, Food Safety Standards and complete Traceability throughout the entire Supply Chain right from Sowing in the Farm to the Consumers table, thus truly maintaining FARM-To-FORK traceability.

Kuroli Foods offers a wide variety of premium grade fruit & vegetable products and agro-based commodities. All the raw fruits are obtained from the fertile farms and orchards to be efficiently processed into the purest form of pulp. We also offer real fruit concentrates and Frozen Food to provide customer-centric solutions for the food. Our processing plants are maintained under food industry's standards to ensure pure and hygienic products to our customers.

## Our Origin

Govind milk is among the largest and most innovative privately-owned dairy companies in India. Back in 1996, when the dairy industry in India was largely unorganized, there was an extreme need for pasteurized milk and milk products in the country. Thus, Govind milk was started with the support of previously distressed local farmers, who needed processing and marketing support for the excess milk they produced.

In the two decades that ensued, Govind milk has made giant strides from our humble beginning of 1000 liters per day to 0.6 million liters per day of milk collection. Today, we manufacture a number of dairy products under our brand names Govind, funzz, and hills and valleys. Equipped with state-of-the-art manufacturing facilities and our extensive distribution network, we are able to provide the highest quality of dairy foods to consumers in India and beyond.

Ever since our inception, Govind milk has always focused on providing the most hygienic and nutritionally superior dairy foods to the quality conscious consumer. This is only possible if we use the best ingredients in each of our products. Every day we work closely with our farmer partners to receive the best possible quality milk. This is the reason we are a favorite amongst our consumers and a preferred supplier and manufacturing partner to some of the biggest food and nutrition companies on the planet.

At Govind, we take our motto of being 'the happy makers' very seriously and truly believe we can spread happiness through food.
